Subject: DOG BAITING

Dear Kerry & staff,

We are a registered breeder of the G.S.D. Last Wednesday evening at Seven Mile Beach one of our dogs we bred and his best mate were murdered by poisoning (stricknen)...The devastated owners put 2 healthy dogs to bed and woke up 2 dead ones and if you are aware on what a painful death these 2 family pets indured....The owners are broken human beings and have all been to the doctor...cannot function ..We as the breeder of this fine animal are also distraught.....

Its quite out there of this horrendous crime of dog baiting , stealing dogs, dog fighting, baiting dogs its happening in any suburb at anytime.. The person/persons are using chalk to mark fences and letterboxes...taking the smaller dogs and poisoning the larger dogs.

With the owners of our puppy who was only 15 months old the prime of his life.....and for his best friend that he has only ever known in his short life was elderly but full of life because of his young mate..its cruel beyond words. .The police made a report and we have all come together to start a site on facebook called [TassieDogPatrol](#) set up my the owners brother.....We have started a reward which a bank account has been set up especially for this....all my buyers have come on board ...and the support from others is amazing we need to get it out there and talked about this has been the problem in the past..people kept quiet we need the media exposure to bring these scum to justice.....I have been on the Heart 107.3 last Friday and it was played to air again Monday morning along with a Police officer talking about the weak laws...when the Reward is an adequate amount I will be announcing it on the radio it may even get to go onto WIN TV.....our story...

I believe it is all our interests to stop these scum and that's what they are to pray on innocent animals to rip families apart..has to stop..

is there anyway that TASDOGS could help? I did post a message on your inbox on facebook on your TasDogs community page.....don't believe any one has looked yet...

thankyou for your time..attached is a photo of the broken owner with the his 2 dogs.....

Regards,

Christine Douglas.....(RonanLine)
