CANDIDATES

ADAM BOOTH

It is a privilege to be considered by the members for a position on Council. I undertake to do my upmost to represent you well.

My background is Business Management, where I have been fiscally responsible for both my own successful businesses, with a multi-million-dollar annual turnover, and those of others. Currently with my wife, we manage three profitable businesses.

My membership with Dogs Tasmania initially commenced in 1990, as a 14-year-old, with the purchase of my first show dog, a Staffordshire Bull Terrier named Jock! In 1995, I bred my first Best in Show winner before leaving the show scene for a time. My parents were members before me, breeding and exhibiting Whippets and Dalmatians under the Cormiston prefix.

A return to the showing came in 2010, when our family began showing Dalmatians, our children being fourth generation Dalmatian owners and third generation breeder exhibitors! Over the past few years, members of the family have also become involved in Tracking, Herding, and Earthdog and most recently Obedience. We hold the belief that a well-balanced dog is a versatile dog. Our Dalmatians are successfully participating in Dogs Sports and Conformation throughout the world. Recent achievements include many Australian Champions, an American Champion, multiple Best in Shows, and an Obedience title in Hawaii!

As a Junior Handlers judge I have had the opportunity to judge the future caretakers of our sport, in three states of Australia, encouraging our young people one on one! I am passionate about supporting our young participants in all disciplines to ensure the long-term future of not only our sports but also of our pedigrees. In addition, I have served an Executive role within the Southern Midlands Kennel Club for almost three years, and am also a Trainee Steward.

It is my priority to support the existing Council in providing the membership with a united and positive future for the organisation we are all part of. I believe that the general public should view our organisation as the voice of purebred dogs, and the "go to place" for information on various breeds and breeders.

As there have been a number of divisions and heated discussions online, whether we admit it or not, I seek to assure you all that as someone who lives in the middle of the state, who supports all disciplines, I aim to work with the other Councillors in supporting the entire membership.

In conclusion, I would hope that the membership would view me as being approachable, it would be my honour to assist any of you as best I can, representing you on Council. A sincere thank you to my nominees, they have known me since I first became involved in canine conformation exhibition, and their endorsement means the world.

JOHN CONNELL

I became a member of the Tasmanian Canine Association originally KCC in 1973, 44 years ago when I was 21 years of age and owned Cavalier King Charles Spaniels. I joined the Ulverstone Kennel Club and served as a hard working member, secretary and vice president as well as being a member of the Obedience Club where I titled the first Cavalier male in Australia, CH, Garaig Bobby Dazzler CD. I ventured on with other breeds namely King Charles Spaniels, Newfoundlands, Rottweilers, Bull Mastiffs, Whippets, Border Terriers, Australian Kelpies, Border Collies and Welsh Springer Spaniels. I am an all breeds judge and presently the chairman of judges training keeping in touch with all study requirements. I am also a fully licensed herding judge and on the Herding Committee and involved with judges training. I am also involved with Earth Dog and helping set up Lure Coursing as well as great interest in Draughting (dogs

were bred for purpose with a specific task in mind).

From 1990 until 2000 I raced/bred/trained Greyhounds with much success and represented Tasmania in the National Distance Championships at Wentworth Park, Sydney with my dog Night Express.

I am presently the secretary of the Cavalier King Charles Spaniel Club for the second year and was the past President for six years since the inaugural show, I am also on the TKC committee.

My original working back ground is nursing (33 years). My wife Lois and I have ran a very successful Boarding kennel and cattery in Railton since 1986 and it is still going strong.

I have been nominated for council and have accepted the nomination. I am very approachable and easy to talk to and wish to work with the council and Dogs Tasmania for sustainable future in all Codes not just conformation. I ask for your support so each and every one of us have a future in our much loved sport.

FAY HARRIS

I began competing in obedience with a toy poodle in 1968 and over the years titled eight dogs in five breeds to different levels including tracking. I was an obedience instructor in Sydney, Melbourne and Albury-Wodonga with dogs clubs and also became a professional trainer training both dogs and people as a member of PDTV, recognised by the Department of Education, Victoria for assessing dogs to go into schools. Linked to this I also gave lessons in Victorian primary schools to children on how to approach dogs and behave around dogs. Whilst in Albury-Wodonga I took puppy classes in several veterinary practices as well as running my own dog training school. Took classes at TAFE on choosing the correct dog for you and your family, grooming courses and clipping lessons. Also took dog training classes with TAFE.

My Hanafor prefix in Hungarian Vizslas has now been established for 39 years and 200+ dogs, many dual and triple champions, have gained titles in all possible areas of endeavour. The prefix is known in many parts of the world and I have been asked to judge the breed at speciality level around Australia as well as the UK and USA.

Before coming to Tasmania I gave lectures around Australia mainly on the Hungarian Vizsla but also the Weimaraner, German Shorthaired Pointer, Bracco Italiano and the Brittany. Since being in Tasmania I have worked on the CJTC and have been co-ordinator for Groups 1, 2, 3, 4, 5 and 7. I am still asked to the mainland to give lectures on many Gundog breeds.

I believe in honesty integrity and what used to be called the Aussie way, a fair go for all. I would like to see Tas Dogs move into the future in a positive, progressive manner with a closer connection to the community. Finally my thanks go to all of you who have given me your support in the past.

REX LOWE

I have been a member of the Kennel Control Council of Tasmania/ Tasmanian Canine Association Inc. since 1971 exhibiting Irish Setters under the Gunrite prefix.

During this time I have served on the TCA Inc Council for six years, executive positions as President and Vice-President on clubs and currently as Vice-President/Secretary of the Combined Breeds Dog Club and Chairman of the RAST Kennel Section. I have also served on the TCA Inc Conformation Judges Training Committee, as well as Discipline & Disputes, Appeals, Sanctioned Events and Public Education Committees.

I am an active Steward willing to assist clubs when available.

I have had 30 plus years as a successful business owner with the business continuing to grow into a very successful operation. It is my aim to carry on the business of the TCA Inc in a professional manner.

If elected I commit to the following:-

1. Ensure Dogs Tasmania remains financially sound and well managed. I believe the business of the TCA Inc needs to continue to be conducted in a professional manner.
2. Base all my decisions on well-researched information and cast my vote impartially.
3. Willing at all times to listen to our member's issues/concerns, take legitimate issues to council and bring these outcomes back to the particular member/s.
4. Encourage more social activities and "let your hair down" functions to bring our members together, away from all discipline competition.

I therefore ask for your support for election to fill the current vacancy.

TCA PRESIDENT'S REPORT

We are now well past the winter solstice and you can really see the days lengthening. This is especially good when you are trying to feed the dogs when you get home from work.

We've had a few notable achievements in the past few months. Firstly Paul Littlejohn was inducted into the ANKC Retrieving Hall of Fame. This just reward for the many years Paul has spent promoting this discipline. Congratulations from all of us Paul.

Secondly the finals of the Junior Handlers' Competition took place. Congratulations to the Committee which organised a great event and also congratulations to the winners – Marley Metzger, Reagan Pearcey and Kasey Pearcey with the overall winner being Kasey Pearcey. Hope you have great success at the national competition and perhaps in England next year.

Every so often, a Councillor or the office will receive anonymous letter usually complaints generally against other members. As a matter of policy, TCA will not investigate anonymous complaints.

You will have received the correspondence regarding proposed changes to the electoral provisions of the Constitution. In order to meet the legal requirements it is required that we set a date now for the Special Meeting to consider the changes. You might note Wednesday 20 September 2017 as the date. Hour and location will follow. There were no weekend days free from fixtures in September.

One piece of late news is that ANKC has signed the agreement with FCI to remain an Associate Member. ANKC will shortly be writing to the State Bodies seeking one nomination from each State to hold a CACIB Show in 2018. ANKC will actually approve the dates to ensure that there is an even spread across the year. All CACIB Shows will be held in accordance with FCI regulations and the will be a maximum of one in each State or Territory each year. All existing shows will continue without any changes at all.

Dogs TAS Lure Coursing

Dogs TAS is very excited to offer its members and dog lovers this new exciting dog performance sport know as Lure Coursing. The history of coursing stems back well into our canines DNA along with some of our ancestors as a means of food and sport testing our sight hounds ability to course small game to bigger prey. This modern take on coursing uses a lure consisting of plastic bags or fake skin for the dogs to chase around a course testing all the breed traits and the form and function. For those people that do not know me I am the ANKC Representative for lure coursing in Tasmania. In the coming months I will be travelling to Sydney to attend a workshop on lure coursing to gain information on lure driving, information on trials and a general understanding of how it all works. For those people interested in lure coursing there will be a workshop and introduction to lure coursing in the next few weeks with another information session when I return from Sydney. Our first information day will be in the North and then one in the South these days are open to all members and anyone interested in lure coursing. I hope to have a lure ready for some straight drags on the information day and look towards some fun days with the trials to get up and running next winter. If you wish to come and run your dogs and you are not a member of Dogs TAS there shall be a small fee to let your dog have a run. We will offer lure coursing to non sight hound breeds and some mixed breeds. For anyone interested in being involved please notify me via the Dogs TAS Lure Coursing facebook page, the office or face to face at shows.

Abbeycairn – Litter brothers become Supreme Champions

A special litter in 2012 saw litter brothers Abbeycairn One Moment Please (Bobby) and Abbeycairn Im No Painted Man (Smudge) born, who would both go on to achieve their Supreme Champion titles within a month of each other, in 2017.

These are the first two litter brothers in the breed in Australia to achieve such a feat, and they did so with limited showing. It is a great achievement and a testament to the dedication of Karen and Kimbra in their breeding, grooming, training and exhibiting of Cairn Terriers.

Both Bobby and Smudge are Best in Show winning Cairns, with multiple Best in Group and In Show awards under Terrier and breed specialists. Since 2014 Bobby and Smudge have maintained number one and two positions on the DOL pointscore for Cairns in Tasmania and in 2017 Bobby is presently second ranked Terrier for Tasmania. They have both been invited to attend the Contest of Champions in Tasmania for the last four years.

Karen and Kimbra have had assistance from their good friends Tracey and Jaidyn Walker and Julia Hamill due to Kimbra's knee injury in helping guide Smudge to his Supreme.

Did you know? . . .

Retrieving Trials for Gundogs are conducted in Tasmania

Does your Gundog love to retrieve?

Does he/she like to swim?

Does he/she enjoy being out with you doing what come naturally?

If so this could be the sport for you!!!

All ANKC registered Gundogs are eligible to compete in Retrieving Trials where they are judged on their ability to retrieve game in a simulated field situation. Watching their dogs work under these conditions brings a smile to their owners face every time.

Can your dog heel 10 metres off lead?

Can he/she retrieve and do a recall?

If so YOU can compete in Retrieving Trials!!!

You are able to compete on three occasions without holding a gun licence then as a member of Dogs Tasmania we can assist you in obtaining a licence.

Only blank ammunition is used at Retrieving Trials.

Beginners Test is your starting point which is two retrieves - then Novice three retrieves Both will incorporate land and water.

Titles!!!

There are titles of course these are progressive.

When you have completed five Novice stakes you gain a NQD (Novice Retrieving Dog) title.

When you gain three 1st places in Novice Stake you gain a NRD (Novice Retrieving Dog) title and the list goes on.

Rules

The Rules for the Conduct of Retrieving Trials for Gundogs are available on the ANKC web site or from the Dogs Tasmania office on request

Clubs

There are two clubs which conduct these trials in Tasmania during the cooler months (usually April to November) the Tasmanian Gundog Trial Association and the Gundog Club of Tasmania. Both clubs hold training days on occasions and all are welcome.

Details of both clubs are obtainable from the Dogs Tasmania Office.

CANINE RESEARCH FOUNDATION GRANTS AWARDED FOR 2017

The Canine Research Foundation is a Public Charitable Trust to support research conducted at Australian universities from funds generated via the levy on puppy registrations, fund raising functions, tax-deductible donations and bequests from the public. The purpose of the Foundation is to provide funding for research directed at improving **canine health**. Canine health refers to research into disease and disease related processes, and/or the prevention of injury and/or disease.

The CRF was founded by the VCA in 1992 and 111 research grants have been awarded for projects through to those commencing in 2017. Just over 1.3 million dollars of funding has been distributed since 1992 for research. Funding to the CRF is received from all ANKC Ltd Member Bodies.

Current trustees of the Canine Research Foundation are: Professor Brian Corbitt (President), Mr Roger Bridgford, Ms Louise Brodie, Dr Steve Holloway, Associate Professor Jan West, and Mr James Rodger.

In 2017 five grants were successful in receiving funding and summaries of the projects are outlined below.

Distribution of genetic mutations associated with degenerative myelopathy

(Dr Jayne McGhie, University of Queensland)

Canine degenerative myelopathy (DM) is a non-treatable disabling neurodegenerative disorder characterized by progressive motor neuron loss and paralysis that culminates in death (commonly by euthanasia). It affects mature dogs in a range of breeds. Recently a mutation in the canine superoxide dismutase 1 (SOD1) gene has been identified as strongly linked to the disease. Genetic testing offering a means to rapidly identify non-clinically affected dogs that are potentially at risk. This knowledge can be used to make breeding decisions to reduce the incidence of DM.

German Shepherd and related Shepherd breeds have a high incidence of DM. The current project aims to test non clinical working shepherd dogs and associated breeding shepherd populations (including any pups) to: (a) estimate the frequency of the deleterious mutation for DM, together with a selection of other known diagnostic markers of disease in these breeds, and (b) inform future breeding strategies to reduce the incidence of this disease in the population. In collaboration with the Queensland Police Force, we will use state-of-the-art genetic testing equipment (Sequenom) and expertise within the University of Queensland to genotype a random sample of 150-200 working dogs, breeders or pups. Expected outcomes beyond the aims above include development of a testing capability for disease diagnosis and preventative medicine that can be applied across a range of breeds in Australia, longitudinal study of the health and well-being of these working animals, and creation of a genomic biobank of DNA for German Shepherds for future research purposes.

Bacterial vaccine against canine pyometra

(Dr Natalie Krekeler, University of Melbourne)

Pyometra (pus in the uterus) is a life-threatening infectious disease in bitches. Up to 25% of un-spayed bitches develop the disease before they reach ten years of age, and most of them die if they are left untreated. However, even if they are treated, most bitches will lose their reproductive potential, as a surgical intervention (spaying) is often the treatment of choice by veterinarians. *Escherichia coli* (*E. coli*) are the bacteria most commonly isolated. So far no preventative measures other than spaying are available. In a previous study we have tested a killed vaccine against certain bacterial virulence factors, which did not lead to the desired antibody response in the animals. This was most likely due to the fact that a killed vaccine was used. We now propose to generate a live-attenuated *E. coli* vaccine using a novel technique. Inactivating certain virulence genes in these bacterial strains has shown effective in a previous experiment with similar *E. coli* causing disease in birds. It allows using a live bacterial strain as a vaccine candidate, which is more likely to raise a satisfactory antibody response than a killed vaccine.

A safety trial of next generation cancer vaccines and targeted IL-15 plasmid therapy

(Dr Christopher Weir, Kolling Institute)

Approximately one in three pet dogs will be diagnosed with cancer in their lifetime. While some

canine cancers can be treated with surgery, chemotherapy and radiotherapy, expense and availability may prevent many dogs receiving treatment. Novel immune based therapies provide another potential weapon to fight canine cancer. We have developed a next generation cancer vaccine (NGV). The vaccine presents a patient's own tumour proteins back to the immune system together with a unique stimulant (RZ-1) and an adjuvant (Advax). Pre clinically we have shown this new vaccine approach is superior in efficacy to the currently marketed canine cancer vaccine. We have also developed targeted plasmid IL-15 therapy which is delivered directly into the tumour to stimulate immune cells inside. The next step is to show safety of the NGV with or without IL-15 therapy in canine cancer patients.

Canine patients with externally accessible tumours who have failed or have no option of standard of care therapy will be offered a place in the trial. Dogs will be placed into groups 1) Vaccine only 2) Combined Vaccine and Inter tumoural vaccine 3) IL-15 therapy 4) IL-15 + Vaccine.

The dogs will be assessed for adverse reactions to the vaccine/IL 15 therapy during and after the treatment period and monitored for tumour progression or regression. Blood samples will be collected to assess immune cell levels and for cytokine analysis. Dogs showing no adverse reactions to the therapies and perceived benefit will be offered further treatments after a period of three to six months.

Biomarkers of canine glaucoma – early detection and disease progression

(Dr Andrew White, University of Sydney)

Glaucoma is a leading cause of blindness worldwide with the incidence in humans similar to rates reported in dogs. The pathophysiology of glaucoma is complex, multifactorial and incompletely understood. Progress in our understanding of the disease, its management and the prevention of progressive vision loss, has therefore been slow.

The use of dogs over rodents as models of disease in ophthalmology has advantages including a larger eye that lends itself easily to surgical manipulation and a visual system that is adapted to vision in both day and night. In order to determine whether dogs can be used as an effective model of disease of glaucoma in human patients, we must determine how to monitor disease progression and/or response to treatment objectively and determine similarities and differences between the species. We will investigate several clinically relevant potential biomarkers in canine glaucoma. A biomarker is a measurable anatomic, physiologic, biochemical, or molecular parameter indicative of a normal or pathologic process, disease state, or of a response to an intervention. Biomarkers might include physiological measurements, blood tests, genetic, metabolic data, or measurements from images. We will look to objectively measure disease progression and determine if and when glaucoma and its progression can be detected earlier and more accurately than it currently is. This will subsequently allow development of clinical trials and interventions targeted at a much earlier stage, with potential for greater effects, compared to what is achieved with current treatments.

Imaging and monitoring osteosarcoma with a novel radiolabelled peptide

(Assoc Prof Chiara Palmieri, University of Queensland)

Canine osteosarcoma is a common and aggressive bone cancer in dogs, with high mortality rate and less than 20% of affected patients surviving more than two years with standard therapy. The lack of specific and successful drugs and the prohibitive costs of treatment for the management of this tumour in dogs indicate the need for new diagnostic and therapeutic approaches. Cancer cells express many proteins that can be used as molecular targets. c-Met is a specific protein highly expressed in canine osteosarcoma and related to tumour growth and invasion. Developing a non-invasive and safe tool that could measure the expression levels of c-Met in real time would enable early diagnosis of canine osteosarcoma and facilitate the mechanisms to monitor the impact of treatment using new c-Met therapies. We will use a targeted diagnostic agent specific for c-Met to imaging and monitoring canine osteosarcoma in vivo. The key aims of this project will be the validation of this new imaging agent for osteosarcoma in dogs which will improve tumour monitoring (to identify residual cancer cells after therapy) and therapy selection (to identify patients who require further and/or different treatments).

The Junior Handler Committee held the State Final for our handlers on Saturday 16 July at The Classic Show – under the watchful eye of our judge Ms Brittany Farrell (SA). The committee was delighted with a lovely entry of 11 Juniors and four of the most precious Tiny Tots. Everyone tried their hearts out and displayed great sportsmanship and professionalism way beyond their years. We were so proud to be able to send each and every child home with a goodie bag and sash to commemorate their achievements.

Congratulations to the State Final winner – Miss Kasey Pearcey. Kasey will fly to Queensland to represent Tasmania at the National Final! Goodluck Kasey!

As a small committee we have many people to thank for their support.

- Maxine Bellingham – Thank you for your fantastic donation of the suitcases our age group winners took home. They were very well received.
- Yvonne Metzger – Thank you for the flowers, donations, raffle, sashes – the list goes on!
- ShowRibbonsOnline – Keith and Karen Irwin – Your continued support is much appreciated!
- Royal Canin, DogNews Australia, Ali Tabrett, Jo McCarthy, Michelle Booth, Geoff Blyth and Maree Aitchison

The JH Committee, comprising of Elaine Job, Kristy Pearcey, Katelyn Smith and myself, have only been together since April and we have demonstrated what can be achieved when our community works in a positive, mutually respectful manner. I am thrilled with the results and am indebted to the committee members for their tireless work and ability to embrace ideas and see them through. As Chairperson you made my job very easy.

Let us get ready for a fantastic new year of Handler Heats!

It was agreed an extension of time be granted to the National Breed Standards Coordination Group to complete the report on Allowable Colours for consideration at the October 2017 Board meeting.

3. Australian Softnet Services Quotation

It was agreed consideration for the inclusion of 'patterns' in the proposed acceptable colour drop-down box enhancement was a good idea and Dr Karen Hedberg should be consulted on this particularly in regards to French Bulldogs. The Directors also agreed that the allowable colours report being prepared by the National Breed Standards Coordination Group would need to be reviewed before proceeding with this enhancement.

4. Whole-Body Barometric Plethysmography Chamber

The Board received a report on the funding of the Whole-Body Barometric Plethysmography Chamber.

CANINE PERFORMANCE ASSOCIATION OF TASMANIA

Third National Herding Trial 20–26 November 2017

CPAT is excited to be hosting the National Herding trial in November. Our Judge is Ms Lynn Leach (Canada) and we are offering three stock types and A, B and C courses, the first time for a National.

We are running a fundraiser BBQ on Saturday 12 August 2017 at Bunnings, Mornington.

Our next Herding Trial will be a double header held on 23 and 24 September, judged by Kerry Webb (Tas) and Cass Finlay (Tas) – tests judged by Louise Rowlands and Lorraine Woods. To be followed in November with a duck trial for the first time at the Brighton show.

The CPAT AGM will be held on 2 September at the Pines, Oatlands. We will be holding a Fun Day in conjunction with this, offering Earthdog, Herding, Noseworks, Fyball and a fun obstacle course.

CPAT is once again running an agility seminar with Natalie Kirkwood, 23 and 24 September. Please contact Kathy at kseadon@bigpond.net.au for availability of working and auditing spots.

Lani Smith, Secretary

WESTBURY AGRICULTURAL SOCIETY INC.

This is our 154th Agricultural Show, and we would like to thank our major sponsor, **BENDIGO BANK, Deloraine** for their ongoing generous support not only to the dog section but the whole Agricultural Society Inc.

Part of their contribution will be **\$25 CASH** to the lucky exhibitor drawn in the lunch break. Good luck everyone on the Saturday.

There will be child handlers – including **Tiny Tots**, during the Saturday lunch break. Again **BENDIGO BANK** will present every child handler with a nice gift, plus a ribbon for each Tiny Tot. A large decorative **sash** will be awarded on both days to the breeder of Best in Show, also donated by **BENDIGO BANK**. Their generosity is appreciated by all.

Thank you to FAMILY VILLAGE MOTOR INN, 100 Westbury Road, Launceston for their ongoing support. Call in for a stay and great food. Please note the 9.15am start on Sunday. Just a short sleep-in. Fun times in the lunch break on Sunday. Parade of Veterans (over 7 years). Free entry.

Please fill out entry for name and details in the catalogue. All Veterans will receive a ribbon and cooked sausage, kindly sponsored by Christian Lee.

Thank you to Mrs Brenda Lee for her generous donation, it is much appreciated. The Lee family have been most kind to the dog section.

NO ON LINE ENTRIES – passes will be sent out in your envelopes.

The \$5 parking fee only applies for the Saturday, and camping is allowed for Saturday night only (\$10 per car) and can be paid with your entry. Definitely no set-ups ringside before 6.30am Saturday.

Anne and Sue will be working in the kiosk with hot and cold yummy food and drinks. Plenty of home-made cakes, slices, biscuits etc and Anne's full salad rolls and sandwiches, pies, dim sims, etc. Please phone me with any queries. We look forward to your entries.
