# PRESIDENT'S REPORT

Hi Everyone

We're now a month past the shortest day but I can't say I've noticed any difference in the morning. It's still dark when I get up. None the less, the weather should improve for our events although you couldn't have got a better winter's day than last Saturday for Hobart Dog Club.

The State Final of the Junior Handlers was held in early July and was very successful. Congratulations, to all the winners and also to Rachael Holloway and her committee for all the work they put in to ensure everything went smoothly. Mia Metzger will represent Tasmania in the National Final and we wish her all the best.

The final draft of the Constitution has been released for member comment. It has been prepared by a Working Party consisting of two members with legal and administrative experience and I am ex officio but I have not attended many sessions wishing to leave it to the experts. A Special General Meeting of members to consider it will be held in the third quarter this year.

The Executive Officer and I were invited to meet with the Animal Welfare Advisory Committee to discuss the review of the AW Act. A full report was posted on our Facebook page. We will keep members informed as we receive more information.

The office has been made aware of non members seeking to purchase frozen semen presumably for the breeding of non registered dogs. Please establish that a purchaser is bona fide before selling semen.

The grant deed for the additional works at Pontville has been finalised and the work will commence soon which will then enable the shed to be completed. Many thanks to David Strong from Tassie Flying Paws for applying for and helping to expedite this grant.

The problems in Victoria and New South Wales seem to ensure we will continue in a state of uncertainty about mainland judges arriving.

The way this wave of COVID has spread and the virility of the variant means we are far from safe in Tasmania. Please observe all COVID requirements and keep yourself safe

I think we should all thank Teena Sloan who in addition to the virtual show is organising a raffle for the benefit of Katelyn Smith (Innes). I think when the proceeds are announced you will be amazed at the amount. Of course thanks also has to go to all members who have supported the show and raffle. You are all so generous.

David Sales, President

***Exhibitors at the Pontville Sports Complex are reminded that vehicles are not to be parked on the ring side of any roads surrounding the dog rings or around the toilet/dump point.***

## **ANKC LTD**

### **ATTENTION: AFGHAN HOUND OWNERS**

In accordance with Regulations Part 6 – The Register & Registrations Section 1.11 an online survey is now available from the link provided below where ANKC is seeking feedback from owners of Afghan Hounds regarding proposed minimum breeding age requirements. Details of the proposal and rationale are noted below for reference:

#### **PROPOSAL:**

The ANKC Ltd and the ANKC Ltd National Canine Health and Wellbeing Committee recommend that:

The ANKC Ltd have resolved to conduct a Survey of all Afghan Hound owners recommending that Litter Registration Limitations are to be applied to litters mated on or after 1 June 2022:-

The Minimum Breeding Age for Afghan bitches is 24 months at the time of mating (unless a veterinary certificate is produced stating that for health reasons the bitch should be mated before 24 months)

If litter registration limitations are approved for the Minimum Breeding Age for Afghan Hound bitches, breeders of litters whelped on or after 1 June, 2022, will be required to comply with the requirements as a prerequisite to registration of any litter on the ANKC Ltd Main Register. Litters which do not meet the above requirements will only be able to be placed on the Limited Register and will be flagged not to be upgraded.

A majority of registered owners within the breed and responding to this survey must be in favour before approval is given by the ANKC Ltd.

#### **RATIONALE:**

*The National Afghan Hound Breed Council does not presently have any rule regarding the minimum breeding age for Afghan Hound bitches so is governed by ANKC Regulations Part 6 Clause 8.2 which states 'the minimum breeding age for bitches across all breeds is 12 months at the time of mating.'*

*It is considered that an Afghan Hound bitch:*

- is not of adequate maturity to be bred at 12 months of age as she is still developing at this age
- the Afghan bitch's health is of prime concern to responsible breeders

The online survey can now be accessed from: <https://www.surveymonkey.com/r/NWC7NF2>

The link is also available from the ANKC website at: <http://ankc.org.au/AboutUs/?id=3298>

Please note responses to the survey are required by **COB 8 October 2021**.

## COUNCIL MEETING DATES 2021

11 August, 8 September,  
13 October, 10 November and 8 December

(SUBJECT TO CHANGE)

AUSTRALIAN NATIONAL KENNEL COUNCIL LTD

## PRESS RELEASE

### EMERGING DISEASE – EHRLICHIOSIS IN DOGS

Ehrlichiosis is a tick borne disease affecting primarily dogs. It is not transmitted from dog to dog, transmission only occurs through infected ticks, the main one being the brown dog tick.

The brown dog tick is widespread throughout mainland Australia. No brown ticks have been found in Tasmania. While ticks are mostly coastal, they can be found further inland.

Ehrlichiosis is the disease that is caused by a tick borne bacteria called Ehrlichia Canis. Once a dog has been bitten by an infected tick, there are three stages of infection:-

1. Acute or early phase (3-4 weeks)
2. A subclinical phase (months to years)
3. Chronic or long term stage (months to years)

Symptoms include fever, lethargy, enlarged lymph nodes, loss of appetite, discharge from the eyes and nose, weight loss, anaemia and bleeding disorders such as nosebleeds or bleeding under the skin that looks like small spots, patches or bruising.

The severity of symptoms varies considerably between dogs. The incubation period is one to three weeks after the tick bite, but the chronic form may not manifest for months or years following infection. PCR and ELISA tests give the most accurate diagnosis along with comprehensive blood tests. Affected dogs require veterinary treatment and supportive care, the earlier this is diagnosed and treated the better. Usually these dogs are treated with tetracycline drugs for a minimum of four weeks, shorter treatment periods may result in subclinical carriers. Seronegative PCR tests will indicate if the infection has cleared.

If not properly treated these dogs can and do die.

#### **Distribution**

This disease can be found worldwide, particularly in tropical and subtropical areas. Once the disease is in the brown dog tick population, it is very difficult to control. German Shepherds and Siberian Huskies are predisposed to develop more severe signs of disease with a worse prognosis (reduced cell-mediated immune response).

In extremely rare cases, infected ticks may infect people, however the species of Ehrlichia that affects humans have not yet been detected in Australia.

Ehrlichiosis is a nationally notifiable disease and the government is conducting surveillance testing of dogs, particularly in the far north of Western Australia, Northern Territory and far north Queensland. The Kimberly and Pilbara regions are two areas affected in Western Australia, along with Katherine and Alice Springs in the Northern Territory.

Dogs from affected areas are being monitored and their movement limited. Dogs moving from these areas could be required to be tested prior to movement and only travelling with healthy dogs that are on an effective tick control program.

#### **Prevention**

Maintain dogs on a tick control program – ensure you do not run over time before treating again, even two to three days late could cause issues.

## **Stewards Committee**

After a bit of a slow start to the year the Stewards Committee conducted their first formal meeting at the end of May. Consideration is being made of the format for training lectures and it was resolved to make use of social media as a tool to assist with training. The Conformation Stewards Tasmania Facebook group is now up and running and membership is invited to TCA members. You don't have to be a steward or a trainee.

If you are a trainee who has previously attended a lecture and you feel you are ready to be considered for assessment speak to a committee member and we will see what can be organized. Committee members are Maureen Jones, Steve Eastley, Griff Parry, Peter Haas and myself.

Some Regulation reminders for all stewards – new and not so new – even those who seem to have been doing it forever.

- After the awarding of Challenge, Best of Breed and Best in Group ensure the judge is aware of whether or not there is anything to return. Don't assume the judge will know there is an exhibit to return. It is too late when the judge announces the award before an eligible exhibit has returned. Once a class has been judged it cannot be re-judged. (Reg. 231)

Also Reg. 128: *Once a judge has commenced judging a class no other exhibit can enter the ring for that class. A class cannot be re-judged.*

- Reg. 224.3: *Not more than one (1) exhibit number shall be displayed at any one time and under no circumstances shall an exhibit be judged without the handler clearly displaying its correct exhibit number.*

I feel sure that it would be appreciated by most stewards if exhibitors also would keep this regulation in mind and not ask if it is okay to go in the ring without the exhibit number making a refusal necessary.

Avoid taking dogs into tick infected areas such as the bush and long grass, especially on coastal areas.

Inspect your dogs for ticks daily for 5-6 days after being in tick infested areas.

### Travelling

The most likely way this disease will spread is by the transport of dogs interstate. Dog exhibitors like to travel far and wide for shows, often interstate. We should all be vigilant with providing tick control measures and renewing these before we travel!

Do not take dogs running along beaches, through the bush etc without adequate tick prevention. Be aware at some shows, the grounds may back onto bush, do not walk your dogs through these areas.

### Long Term

We have to be aware that this disease will in all probability become far prevalent and widespread over the next 10 years. Tick prevention should become second nature especially when travelling.

### **COVID-19 Check-in**

The EO advised the meeting that this matter had been dealt with via e-mail and that he would talk to Mr J Cook from Show Manager about the registration of attendees when they were doing their entries.

### **COVID-19 Quarantine**

M Aitchison queried who would be responsible for the costs for quarantine should an interstate judge forced into quarantine through a directive of the Tasmanian government.

D Sales advised the meeting that he believed that the state government was responsible for costs under these circumstances.

### **Rally Judges Training Scheme**

C Lowe raised the issue of the practical assessment of the trainee judge for Rally Obedience, Mrs R McDade, as there were only three judges who could assess her in the state and one of them had been involved in her training.

The EO advised the meeting that an interstate judge could be brought in to assess as had been done in the past.

### ATTENTION: JACK RUSSELL TERRIER OWNERS

In accordance with Regulations Part 6 – The Register & Registrations Section 1.11 an online survey is now available from the link provided below where ANKC is seeking feedback from owners of Jack Russell

Terriers regarding proposed amendments to the breed standard. Details of the proposal and rationale are noted below for reference:

### **PROPOSAL:**

The ANKC Ltd have resolved to conduct a Survey of all Jack Russell Terrier owners recommending that the following changes to the Breed Standard be endorsed:

### **Body**

Chest deep rather than wide, with good clearance and the brisket located at the height mid-way between the ground and the withers. The body should be proportioned marginally longer than tall, measuring slightly longer from the withers to the root of the tail than from the withers to the ground **the length from the point of the shoulder to the buttocks slightly greater than the height from the withers to the ground.** Back level. Ribs should be well sprung from the spine, flattening on the sides so that the girth behind the elbows can be

spanned by two hands – about 40 cms to 43 cms. The loins should be short, strong and deeply muscled.

The change is to replace the wording underlined with the wording in ***bold italic***.

### **RATIONALE:**

*This brings the Standard in line with the Country of origin UK standard.*

*The ANKC standard gives totally the wrong body proportions by measuring from the withers to the root of the tail versus the point of shoulder to the buttocks in the Kennel Club standard.*

A majority of registered owners within the breed and responding to this survey must be in favour before approval is given by the ANKC Ltd.

*Shortblak Scottish Terriers have been breeding Scottish Terriers for over 8 years, to which they have bred Australia's No1 Scottish Terrier - 2014, '15, '16, '17, '19.*

'Our dogs can be fussy eaters but always empty bowls on Royal Canin as they clearly find it very palatable. Scottish Terriers being a coated breed, coat and skin condition is very important, conditioned on Show Beauty our Scotties coats have been never better. Being terriers Scotties are always on the move but they never lose condition' Stacey Sullivan from Shortblak Scottish Terriers says.

'All our babies are given the right start in life with the Royal Canin Starter Mousse and they always absolutely thrive on this food growing into strong healthy puppies'.
