Whether your dog is a show dog, used for breeding, a working professional or a family companion, body condition, nutrition and the environment will influence health and performance throughout their lifetime.

We're driven by the idea that nutrition, dogs' lives and performance can always be improved. That's often meant our formulas have broken new ground.

Innovation is in our DNA, we're the first to use beet pulp and key prebiotics to help optimise digestion, the first to identify specific levels of omega-6 and omega-3 fatty acids to help support skin and coat health and we created an antioxidant blend to support immune function and post-exercise recovery.

The list of breakthroughs goes on — and our commitment to making the best performance nutrition will as well.

# **TCA PRESIDENT'S REPORT**

## **FOR ANNUAL GENERAL MEETING OF MEMBERS**

### **MONDAY 13 MARCH 2023**

As a preamble to my report, I would like to apologise for my absence at today's meeting. A commitment, which I could not postpone has taken me out of Hobart. I am sure in my absence the Vice President will ensure the smooth running of the meeting.

Well, that was the year that was, 2022 has come and gone and we have survived. In terms of our calendar, we were almost back to normal, however the Show Secretary's job suddenly became the most precarious on the Club Committee with judges cancelling because of Covid and airlines cancelling flights with little prior warning.

Regardless of the discipline, I think we should thank all those Show Secretaries who spent their Friday's nervously listening for the phone and hoping that it didn't ring. Then spending literally hours on the phone trying to arrange substitute judges. Many thanks also to the many local judges who stepped in to ensure the events went ahead.

Financially the association has had a good year. The Treasurer will report a substantial surplus despite the additional costs in having our own dedicated premises. I am sure everyone will study the financial statements closely.

The move of the office to new premises has run smoothly. The office space really matches our needs and the meeting room has been a bonus. The Library Custodians have been working assiduously cataloguing our stock and culling unwanted items. Cupboards have been purchased and all books are safely stowed and access can be arranged by contacting the office. Thanks to the custodians for the great effort in achieving this. In addition, some clubs are using the room for meetings and it has been a valued base in Hobart for Zoom meetings.

Now that the Constitution has been reviewed and amended a small working group has been trying to get the regulations into some semblance of order. This is a really major job as anyone who has tried to find something in the regulations will attest. The job may be completed this year but I expect it will probably be early next year.

The Pontville Sports Centre has been working well as the Hobart base for conformation shows. Obviously the greatest disappointment has been the extraordinarily slow progress on the indoor facility. There are actually some signs of action on the project, and I hope we can report its opening during 2023 in next year's report.

While conformation entries are down again, the shining light has been the number of new disciplines which have emerged. I see these activities as the future of canine activities and it is great to see the increasing representation of participants in these activities on the Dogs Tasmania Board.

Although the number of candidates was small, congratulations to the two candidates who passed their conformation judges licence exams and congratulations to all the participants in other disciplines who were also successful.

We have also been talking to an interstate Compliance Officer regarding the introduction of a compliance scheme in Tasmania. At our meeting with the Animal Welfare Advisory Committee, it was pointed out to us that while AWAC was generally satisfied with our legislative structure, unless satisfactory compliance procedures were being pursued more onerous legislation may be required. Regulations are being prepared and should be implemented in the middle of the year.

On the national scene, Dogs Australia has rebranded itself and commenced a publicity

campaign to cement its place as Australia's principal canine organisation. To distinguish ourselves, Dogs Australia will continue to emphasise the quality of our breeders and the numerous measures that our breeders take to secure the health and welfare of the puppies they breed.

Gradually the whole administrative process is becoming electronic. We have allowed the larger states to test some of the systems so that when we transfer, the bugs will be ironed out but the changes will continue to be rolled out.

We also now have a new title to strive for. A suite of AAOS Championships will be able to be obtained at A20 Shows. Details of the requirements will be released by Dogs Australia in the near future. In addition, there have been changes for CACIB Shows. A new class of Veteran has been introduced as compulsory and CACs will be available for Juniors and Veterans and they can achieve CAC-J or CAC-V titles.

All of the ANKC Committees have a Tasmanian Representative and I would like to thank our highly qualified members who give up their valuable time to participate. I have been Treasurer of ANKC for many years and can report it is in a very sound financial position despite spending money to raise our profile. During the year with the assistance of most states, ANKC contributed \$40,000 to the FCI's fund to assist canines affected by the war in Ukraine. We are currently looking to assist with the problems in New Zealand, as they contributed to our fundraising following the fires in Victoria.

Dogs Australia is looking to progress health testing in a number of areas and gradually this information is being transferred into the registration system and in many cases is being made mandatory for registration.

I have thanked a number of groups, in this report but in case I have missed anybody sincere thanks to all our volunteers. They give enormous amounts of their own time to enable our activities to continue. If we had to pay for the work they do, we would not have a sport.

In conclusion I would like to thank all Councillors for the work they too have put in during year and the great support they have given me. I would also on behalf of members thank Tull Luttrell for her efforts while on Council and welcome David Strong to Council. It would also be remiss not to acknowledge the sterling efforts of Kerry, Judy and Debbie during 2022. The result is a credit to them. I think we should also acknowledge the additional tasks they have taken on in the move to Pontville and which will continue until we have our "shed". This certainly is not part of their job description and the time put in outside normal office hours is considerable.

David Sales, President

## PRESS RELEASE

### EHRlichiosis IN DOGS

#### **Distribution of the Brown tick in Australia**

Currently as of early 2023, the disease has been reported in the Mount Isa area and as far east as Townsville.

All people travelling with dogs into north Queensland, the Northern Territory, the far north of Western Australia and northern South Australia should be taking precautions against ticks.

All dogs should have Serresto tick collars on prior to entering these areas and to stay on tick preventatives for several weeks following. If you are using other oral products for flea, heart worm and tick control, these can continue to be used. The aim is to prevent the tick from biting the dog and these collars repel the ticks.

Ehrlichiosis is a tick-borne disease affecting primarily dogs but equally affects dingoes and foxes. It is not transmitted from dog to dog, transmission only occurs through infected ticks, the main one being the brown dog tick.

The brown dog tick is widespread throughout mainland Australia. No brown ticks have been found in Tasmania. While some ticks are mostly coastal, the brown dog tick is found extensively throughout the Australian continent.

***Ehrlichiosis is the disease*** that is caused by a tick-borne bacteria called Ehrlichia Canis. Once a dog has been bitten by an infected tick, there are three stages of infection:–

1. Acute or early phase (3–4 weeks)
2. A subclinical phase (months to years)
3. Chronic or long-term stage (months to years)

Symptoms include fever, lethargy, enlarged lymph nodes, loss of appetite, discharge from the eyes and nose, weight loss, anaemia, and bleeding disorders such as nosebleeds or bleeding under the skin that looks like small spots, patches or bruising.

The severity of symptoms varies considerably between dogs. The incubation period is 1–3 weeks after the tick bite, but the chronic form may not manifest for months or years following infection. PCR and ELISA tests give the most accurate diagnosis along with comprehensive blood tests. Affected dogs require veterinary treatment and supportive care, the earlier this is diagnosed and treated the better. Usually, these dogs are treated with tetracycline drugs for a minimum of four weeks, shorter treatment periods may result in subclinical carriers. Seronegative PCR tests will indicate if the infection has cleared.

If not properly treated these dogs can and do die.

### **Distribution**

This disease can be found worldwide, particularly in tropical and subtropical areas. Once the disease is in the brown dog tick population, it is very difficult to control. German Shepherds and Siberian Huskies are predisposed to develop more severe signs of disease with a worse prognosis (reduced cell-mediated immune response). In extremely rare cases, infected ticks may infect people, however the species of Ehrlichia that affects humans have not yet been detected in Australia.

Ehrlichiosis is currently a notifiable disease. While this disease was first reported in the far north of Western Australia in the middle of 2020. Since that time, cases have also been found throughout the Northern Territory where it is now considered endemic, right down to the South Australian border. A case has been found recently in Mount Isa where the infected dog has no history of ever leaving the state.

At the rate this is moving, no state will be safe and all people who travel with their dogs should be aware of the risks and the need to provide preventative measures to protect their dogs.

Dogs from affected areas are being monitored and their movement limited (at this stage). Dogs (including rescue dogs) moving out from these areas are required to test negative. Healthy dogs should be on an effective tick control program.

### **Prevention**

The aim is to prevent tick bites in the first place so as to avoid the dog getting the disease. The best prevention is to use Tick collars of which Serresto is the best as it repels ticks.

Secondly, have a good tick and flea control program in place so that if a tick does get on the dog, it will be killed. There are quite a few products that can be used but ensure the dog is not left unprotected by running late with treatments.

Avoid taking dogs into tick infected areas such as bush and long grass, particularly in coastal areas. Inspect your dogs daily for ticks for 5–6 days after being in tick infected areas.

Check bedding and treat with anti-parasite sprays if in a tick area.

### **Travelling**

The most likely way this disease will spread is by the transport of dogs interstate. Dog exhibitors like to travel far and wide for shows, often interstate. We should all be vigilant with providing tick control measures and renewing these before we travel!

Do not take dogs running along beaches, through the bush etc without adequate tick prevention. Be aware at some shows, the grounds may back onto bush, do not walk your dogs through these areas.

### **Long Term**

At the rate this disease is spreading, it is highly likely that this disease will be widespread throughout Australia within the next 5–10 years. With global warming, the brown ticks will become more common even in the southern states. Keep an eye on warnings put out by the government of where new cases are detected so you can be aware of this real threat to your dogs health.

Tick prevention should become second nature, especially when travelling into areas of high risk.

### **BUSINESS ARISING FROM THE MINUTES:**

#### **Southern Venue**

The EO advised the meeting that he and Mr D Strong had been working with Mr D Cundall, the Project Manager, relating to the electrical fittings in the shed.

#### **AWAC – Kennel visits**

D Sales advised the meeting that the Association's regulations had to be changed to allow the kennel visits to occur and that Miss Crofts, the Dogs New South Wales Compliance Officer, thought that Dogs NSW would be happy to assist the Association in getting the kennel visits underway.

#### **Calendar of Events Meetings**

The EO advised the meeting that he had contacted all affiliate clubs requesting agenda items for the Club Executive Meetings to be with the office by 28 February 2023.

### **FINANCE:**

Financial Reports for the period 1 – 31 December 2022 were circulated to all Councillors indicating a loss of \$17129.63 for the month compared to a loss of \$28671.27.86 for the same period in 2021 and a YTD profit of \$33833.30 compared to \$12766.17 in 2021 and Bank Registers for the same period showing deposits totalling \$37143.27 and withdrawals totalling \$41467.53.

### **COMMITTEE REPORTS:**

Reports were received from the Association's Finance and Regulations Committees.

### **GENERAL BUSINESS:**

#### **Executive Officer's Report**

The EO's Report advised that:

- Processing is at a 9 working day turnaround;
- There were 127 puppies registered in the period 14 December 2022 to 25 January 2023 compared to 165 last year;
- A total of 2463 puppies were registered in 2022;
- There are 952 members including Life Members as at 25 January 2023 compared to 983 in 2022;
- 123 membership renewal reminders were sent out 30 September 2022.
- Scent work results are published in the Gazette if a club sends them in for publication.

*P Hallam advised the meeting that not all qualifiers were published. The EO agreed to look further into this matter.*

- He had received a query relating to TCA Inc Regulation 235.2:  
Other Disciplines – The value of trophies for any other discipline shall not be less than the entry fee charged for first place and not less than 50% of the entry fee for second and

third places. Any application for dispensation from this regulation that is made prior to the fixture will be considered by the TCA Inc Council.

The club has asked if the sashes/ribbons are included in the equation.

**RESOLVED:** 'The cost of sashes should be included into the trophies.'

### **COVID Regulations**

The EO suggested that, at this point of time, the regulations that were changed due to COVID-19 should not be changed as COVID was still causing problems with contracted judges who were unable to travel to their appointments.

**RESOLVED:** 'The EO's suggestion be endorsed.'

### **Breeders Not Complying with TCA Inc Regulations**

The EO advised the meeting that the office was attempting to work with breeders who did not comply with TCA Inc Regulations in an effort to get the outstanding litters registered.

### **Electronic Meetings**

R McDade suggested Zoom be considered as the provider for electronic meeting. The EO agreed to look into the suggestion.'

### **Trick Dog Tests**

P Hallam congratulated the Canine Performance Association of Tasmania on the success of their Trick Dog Tests.

### **Calendar of Events**

M Aitchison suggested that the Calendar of Events needs to be looked at as it is hard to decipher.

### **'Special Certificates'**

M Aitchison queried the hand written Special Certificates that were being given out at northern shows.

The EO advised the meeting that Mrs J Menzie was going to contact Mrs S Evans on this matter.

### **Airfares**

M Aitchison suggested that the ANKC should approach airlines for cheaper airfares for judges' travel.

**RESOLVED:** 'The matter be listed as an agenda item for the next meeting of Council.'

### **Set-up Times at Pontville**

M Aitchison advised the meeting that the Friday afternoon set up was having an impact on northern exhibitors entering the shows at Pontville.

**RESOLVED:** 'The matter be revisited once the shed is built.'

### **Lactating Bitches**

T Luttrell advised the meeting that a regulation needs to be adopted preventing a bitch from participating in sanctioned fixtures until nine weeks after whelping.

***The meeting closed at 8.50pm.***
