TCA PRESIDENT'S REPORT

As I put together my first President's Report during what we recognise as World Volunteer Week, it has reminded me of the importance of volunteers to our own sport. To all the volunteers in all disciplines I say thank you for your contribution to the running of our organisation. None more so than David Sales, who stood down recently as President of Dogs Tasmania at the conclusion of the AGM. His work for not only our state body but the national executive has been invaluable.

David stays on as our ANKC delegate enabling him to continue his important role as Treasurer of the ANKC.

The development of venues around the state continues. Quercus Park United Kennel Clubs completion of their canteen in time for the recent Agfest enabled them to maximise their time during the festival with great results. Well done to all concerned. The completion of the pavilion at Pontville Park has seen the office now furnished and operational. The use of the pavilion and its verandah by clubs has solved the problem of crowding and lack of gazebo spaces, and we encourage clubs to use the facility provided. Discussions have commenced with council regarding the installation of flood lighting.

A Respiratory Function Grading Testing day is being held at the dog arena Pontville on 19 July 2024, commencing 9.30 am. It is a fantastic opportunity to get your dogs assessed by Australia's chief RFG assessor Dr Arthur House. Bookings are essential and can be organised by contacting: Yanina Smith – 0407 555 947.

My contact details have changed recently and are as follows: mobile 0435 568 814 and email: cloudforeststeve@gmail.com, please feel free to contact me at any time.

Responding to Activists

STEPS FOR HANDLING CONFRONTATION AT AN EXHIBITION OR EVENT

| | |
|---|---|
| Proudly show our practices are best practice | Regardless of the risk of confrontation, every exhibitor should proudly uphold the standards expected of us as loving dog owners and members of Dogs Tasmania and present our dogs and ourselves positively. |
| Advise the show or trial manager, call 000 if needed | Advise the event manager if you believe activists are present and they will advise the local police. If activists create a disruption or confrontation, call 000 immediately. If you call 000 clearly articulate the risk that the activists are posing: to yourself and others, the dogs' welfare, personal and venue property, etc. |
| Do not engage | Do not engage directly. Keep calm even if provoked and keep your distance if possible. |
| Ask them to leave | If activists enter the area you are using to house your dogs, speak with them politely to ask them to leave. Acknowledge their right to state their opinions in a lawful manner but ask that they respect your right to continue to look after your dogs' welfare in a safe manner without distress. Ask them to please leave the area and move to a space away from the dogs. They may not respond to the request, but it will make it clear they do not have permission to be there. Do not engage with them further. |
| Move yourself and your dogs to a safer position | Your safety and welfare and that of your dogs comes first. If activists won't leave, relocate to an area that is safer for you and your dogs. |
| Create a record | Video footage and photos taken on your phone of the above can be used by police. If there has been damage to property record the details and if possible wait until police have examined the scene before touching anything. Please always consider the safety of yourself and dogs when confronted with activists. |

GIVE THEM THE BEST START OF LIFE

Royal Canin HT42d (named because of the time it is recommended to feed) is specifically formulated for Breeding adult bitches over 10kg from the 1st day of heat to the 42nd day of gestation.

HT42D is formulated for reproductive health with a unique nutritional profile to meet bitch reproductive cycle 1st stage needs: from heat to 42nd day of gestation. It contains added betacarotene to help prepare the bitch for optimal reproductive performance. Enhanced folic acid and fatty acids to support healthy embryo and foetal development, and appropriate energy content.

The puppies brain development is assisted due also to the enriched DHA, an omega-3 fatty acid, which is scientifically proven to support a puppy's brain and eye development during gestation. Combination of prebiotics & highly digestible proteins help to promote a healthy balance of intestinal microbiota for digestive health & microbiome support.

Get access to **exclusive** professional products to support reproductive health, available only to our **Royal Canin® Breeder Club members.**
